## LABORATORIES

Our labs are meant to be exploration zones, where children, under adult supervision, question, challenge and explore the various concepts that they learn in the course of their subject studies.

---

## SCIENCE LABORATORIES

Currently, we have one lab which caters to all the students, and we are in the planning stages of the Biology, Chemistry and Physics Labs. The labs will be designed in a learning conducive manner and will be equipped with the best available equipment and material to match the international standards expected from our school.
